INDEX

TO

PART II

THE RECORDS AND BRIEFS

OF THE

SUPREME COURT OF THE UNITED STATES

1861 - 1870

UNITED STATES SUPREME COURT RECORDS AND BRIEFS

Part Two

1861-1870

PREFACE

During the period from 1832 to 1860 the copies of the Records and Briefs of cases argued before the United States Supreme Court were carefully arranged and indexed at the Library of the Pennsylvania Bar Association in Philadelphia. In the decade of the Civil War and Reconstruction, from 1861 to 1871, however, this careful organization was temporarily disrupted, although complete copies of all the Records and Briefs continued to be preserved.

As an aid to the researcher in the Records and Briefs for this latter period Scholarly Resources has designed an index which keys these documents to the Tables of Cases in the United States Reports (also titled Black's Reports and Wallace's Reports). Rather than compounding the problem by attempting to reorganize these volumes, we have constructed an index of cases which appears on a separate reel for Part Two - entitled the "Index Reel" - and have added this reel at no extra cost to purchasers.

The index is designed as follows: a copy of the alphabetical Tables of Cases for the volumes of United States Reports is provided (columns A and B). On the right-hand margin of each case we have designated the number of the reel in which the case appears in the microfilm set of the Records and Briefs (column C); the volume in which the case appears in the original series of the Records and Briefs (column D); and the sequence number of the case in the volume (column E) since the cases were not paginated continuously through the volumes.

The Records for each case include an internal index and the Briefs follow the Records for each case in sequence. As in Part One of the microfilm set of the Records and Briefs, illustrations can be found at the end of each reel where appropriate, and their locations in the original text are noted in the film. Some pages in the original documents were found to be damaged, but in most cases the text is legible.

The researcher will also note that there are a number of cases whose records appear in the Records and Briefs, but were not reported in United States Reports. These cases appear to have been brought before the Supreme Court but were denied certiorari.

After 1871 the Records and Briefs were keyed directly to the arrangement of cases in United States Reports. Scholarly Resources has prepared indexes for these later volumes and also for the earlier volumes from 1832 to 1860, so that the researcher will be able to locate any case in the Records and Briefs for the entire period from 1832 to 1896 by referring to the Tables of Cases in United States Reports. Hard copy editions of the partial or complete index will be available on demand. Interested persons may write to Scholarly Resources for further information and prices.

The Records and Briefs of the Supreme Court of the United States were produced by Scholarly Resources in cooperation with the Jenkins Memorial Law Library of the Pennsylvania Bar Association. We would like to again express our thanks to the Jenkins Library for permitting the use of its set of the Records and Briefs, thus making this important source available for lawyers and scholars everywhere.
